CARBONIO

All-in-one, Private Digital Workplace

A UNIFIED WORKPLACE

The whole organization can easily collaborate on **one single product**:

- exchanging emails,
- scheduling calendar events
- chatting with people or groups,

- attending video meetings,
- sharing all kinds of file,
- collaborate on the same document.

Chat and Groups

Email and Calendar

ULTIMATE USER EXPERIENCE

Carbonio is beautiful in its **simplicity**. It offers a secure experience to your users, **on every device**.

All daily activities are within a click's reach, **without changing window**, making the workflows of the entire company seamless.

THE FUTURE OF COLLABORATION

Teamwork and collaboration will be less and less bound to geographical borders.

Carbonio platform was designed for effectiveness even for **remote teams**, opening new collaboration horizons while enhancing **productivity and wellbeing**.

♛ SIMPLIFIED OPERATIONS

Carbonio is an admin-friendly platform with many tools to back administrators up:

• Storage Cost Savings
Using object storage, automatic deduplication, and file compression.

• Real-time Backup and Restore
No data loss in case of a disaster using external backup. Easily restore from a single item up to the entire infrastructure.

• Multitenant Environment
Delegate admin tasks by domain to the right person.

⚡ THE PERFECT SIZE

- **Mailbox-level Continuity** - In case of a mailbox failure, replicas can be automatically promoted to restore access with minimal service interruption.

- **Scalability** - Your infrastructure grows as your organization needs, horizontally or vertically, without any downtimes.

- **Centralized Storage** - Manage large multistore environments by significantly improving space savings, data transfer speeds, and flexibility.

🔒 PRIVATE EVERYWHERE

Is your organization really **in control of data**?
Do you know where it is stored,
and who can access it?

With Carbonio, **digital sovereignty** is finally
attainable, without giving up on effective
collaboration.

You can finally stop giving up your sensitive
data to proprietary, public cloud solutions.
Whether you decide to deploy Carbonio
on premise or on a **private cloud**,
your data privacy is safe.

☑ COMPLIANT WITH DATA REGULATIONS

Corporate data is private and secure, on a
platform designed for digital sovereignty.

Carbonio is 100% **compliant** with a
number of data protection regulations,
such as **GDPR, DPDP, PIPEDA, LGPD**...
