CAR3ONIO

Open Source, Private E-mail & Collaboration

ZEXTRAS®

UNIFIED WORKPLACE

Quickly reach out to your colleagues and collaborate **on one single product:**

- exchanging emails,
- scheduling calendar events,
- chatting with people or groups,
- attending video meetings,
- editing and sharing files,
- mobile parity.

SIMPLIFIED OPERATIONS

System administrators are the heart of a digital workplace. Without them, everything collapses into a mess of unusable data. Carbonio is an admin-friendly platform with many tools to back them up.

- **Storage Cost Savings** - Using object storage, automatic deduplication, and file compression.

- **Real-time Backup and Restore** - No data loss in case of a disaster using external backup. Easily restore from a single item up to the entire infrastructure.

- **Multitenant Environment** - Delegate admin tasks by domain to the right person.

ULTIMATE USER EXPERIENCE

Carbonio is beautiful in its simplicity.
A secure experience to your users **on every device:** bring instant energy to your communications, projects, teamwork, and eventually to your organization.
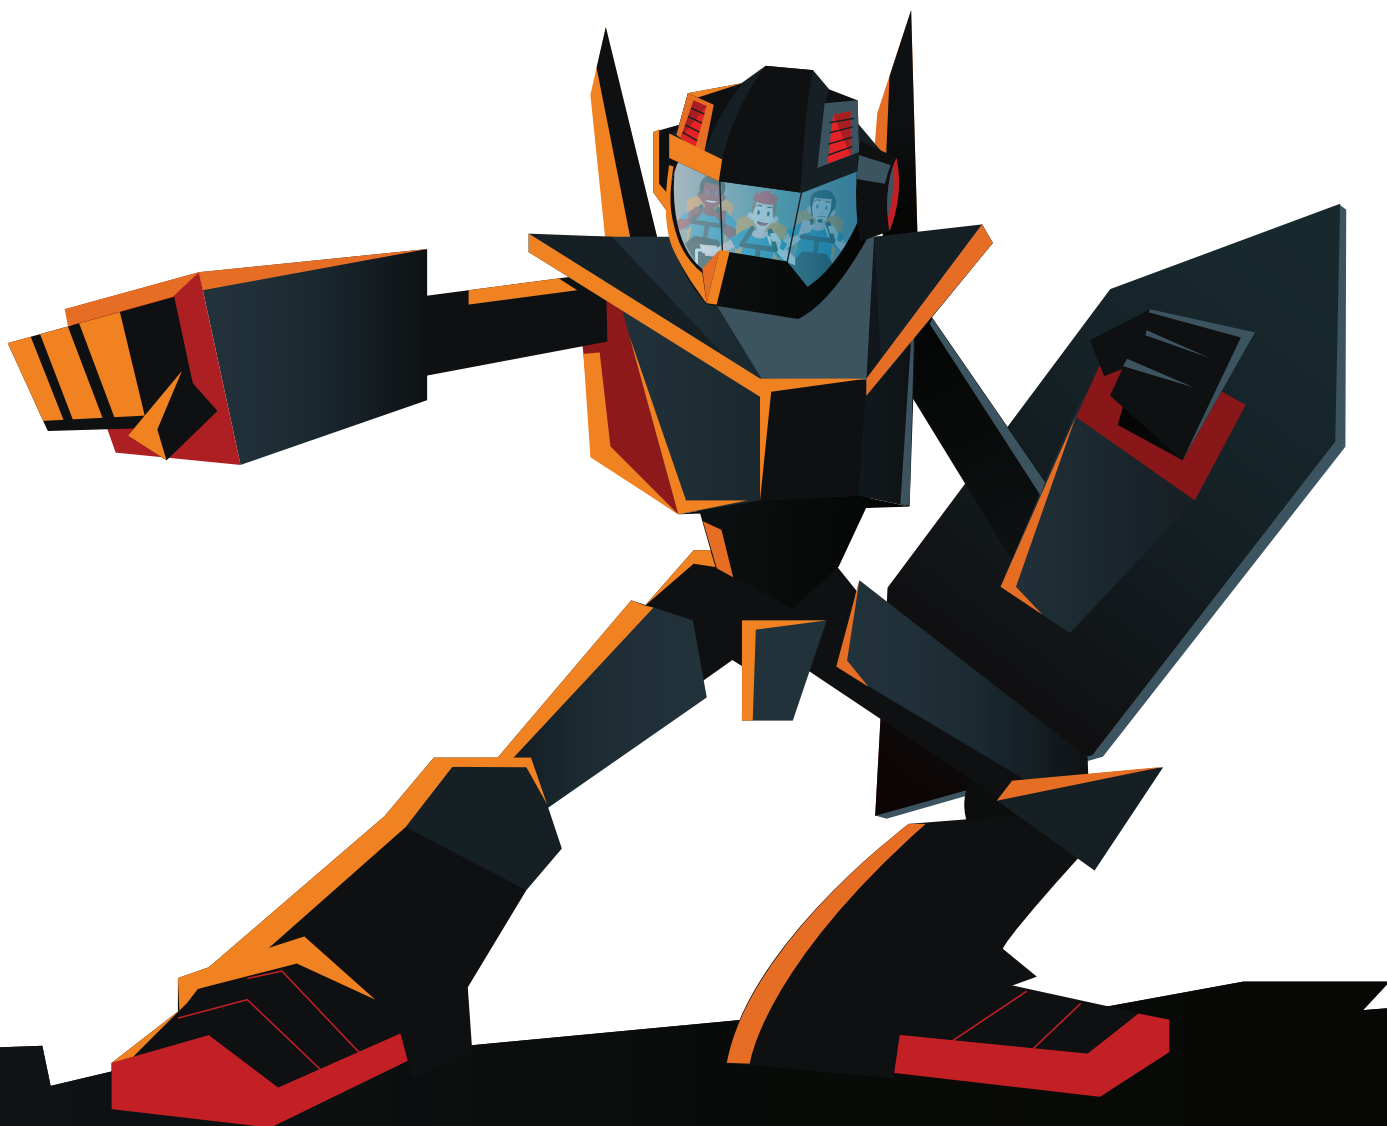

YOUR DATA IS FINALLY SAFE

Carbonio brings you peace of mind by allowing your organization to store sensitive data **privately and securely.**

This makes it an excellent choice for anyone who wants to comply with **data privacy regulations** such as **GDPR,** which include data localization, access security, right to data portability, right to be forgotten.

IT'S ABOUT SIZE

- **High Availability** - Your infrastructure will never go down, even if some of the servers fail.

- **Scalability** - Your infrastructure grows and reshapes as you need, without any downtimes.

- **Centralized Storage -** Manage large multistore environments by significantly improving space savings, data transfer speeds, and flexibility.

THE FUTURE OF COLLABORATION

Teamwork and collaboration will be less and less bound to geographical borders in the next future:

20%

Worked from home before 2020

71%

Currently are working from home

54%

Want to continue working from home

Zextras has designed a platform that makes it possible to leverage people's talent worldwide, opening new collaboration horizons and dramatically increasing productivity.

Are you really in control of your data?

Do you know where it is stored, and who can access it?

**Advanced collaboration features shouldn't come at the cost of data sovereignty!**

With Carbonio you can finally stop giving up your sensitive data to proprietary cloud solutions.

CHOOSE PRIVATE.

PRIVATE EVERYWHERE

You will be in control of your data whether you choose to deploy Carbonio **on-premise** or on a **private cloud**.
